Parents' Bill of Rights for Data Privacy and Security — Supplemental Information

Required of every third-party contractor under New York Education Law §2-d and 8 NYCRR §121.3. Fill in the district name and sign where marked.

Contractor: Moses Sasson, doing business as Studento (studentoclockapp@gmail.com)
Product: Studento, a bell schedule countdown app for iOS, iPadOS and the web **Educational agency:** Great Neck Public Schools (the District)

1. Exclusive purposes for which the student data will be used

Studento shows a countdown to the next bell and the student's own class schedule, sends local bell reminders on the device, and (optionally) saves the student's schedule to an account so it can be restored on another device. Student data is used for those purposes only. It is never used for marketing, advertising, profiling, or sold or shared for any commercial purpose.

2. Data the product collects

Data element	Required?	Where it lives	Why
Class names, room numbers, chosen bell schedule, display settings	Yes, entered by the student	On the device only, unless the student signs in	Shows the countdown
Username and password (hashed)	No. Only if the student creates an account	Studento server (Cloudflare D1, United States)	Lets the student restore their schedule on another device
The student's schedule and settings	No. Only if signed in	Studento server	Same
A photo or typed text of the schedule	No. Only if the student uses the schedule reader	Sent to the server and an AI provider for one request, then discarded. Never stored.	Turns the photo into a schedule
Reports about shared content (reason, note)	No	Studento server	Lets an admin remove bad shared content

Not collected: name, email, phone, date of birth, student ID, grade level, location, photos of the student, contacts, advertising identifiers, device identifiers, analytics or usage events, or any PII under FERPA. Usernames are chosen by the student; the District should instruct students not to use their real names.

3. Subcontractors

Subcontractor	What they receive	Purpose
Cloudflare, Inc. (US)	Account data and schedules (encrypted)	Hosting and database
Groq, Inc. (US), Google LLC (US)	The schedule photo or text for one request, not retained	Schedule reader (optional)
Expo (650 Industries, US)	No student data; app update files only	Over-the-air app updates
Apple Inc.	App distribution only; Apple's own terms apply	App Store

Each subcontractor is bound by its own data-processing terms and by this supplement's restrictions. No subcontractor receives data about who the student is.

4. Duration of the agreement and what happens to the data when it ends

The agreement runs for the school year in which it is signed and renews annually unless either party ends it. When it ends, the District may ask for every account created under it to be deleted; Studento will delete them within 30 days and confirm in writing. Students can also delete their own account and all server data at any time from inside the app (Settings > Account > Delete my account). Data on the device is removed when the app is deleted.

5. How a parent, student or eligible student may challenge the accuracy of data

Every data element is entered and editable by the student in the app. A parent or student may also email studentoclockapp@gmail.com, or contact the District's Data Protection Officer, to request a correction or deletion. Requests are answered within 10 business days.

6. Where the data is stored and how it is protected

Server data is stored in the United States in Cloudflare's network. Data is encrypted in transit (TLS 1.2+) and at rest. Passwords are never stored; they are hashed with PBKDF2-SHA256 and a per-user salt. Access tokens are stored hashed. Sign-up, sign-in and the schedule reader are rate-limited. Studento follows the NIST Cybersecurity Framework as required by 8 NYCRR §121.5:

least-privilege access (one administrator), no shared credentials, logged administrative actions, and dependency updates each release.

7. Encryption

Encrypted in transit and at rest as described above, meeting the standard in Education Law §2-d(5)(f)(5).

8. Breach notification

Studento will notify the District of any unauthorized release of student data within seven calendar days of discovery, in the most expedient way possible and without unreasonable delay, and will cooperate with the District's own notifications under Education Law §2-d(6) and 8 NYCRR §121.10.

9. Training

The sole administrator with access to the server has completed data-privacy and security training and reviews it annually.

10. Complaints

Parents may file a complaint about a possible breach or unauthorized release with the District's Data Protection Officer, or with the New York State Education Department Chief Privacy Officer at privacy@nysed.gov, or by mail to the Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, NY 12234.
